## **SUMMARY**

Motivated programmer, in the process of completing a degree in Computer Science and Mathematics, with a passion for problem-solving and a strong foundation in various programming languages. I thrive under pressure and have a proven ability to adapt quickly to new environments

## **EXPERIENCE**

- Intense work with Java
- Development in C
- Wide knowledge of Design Patterns
- Writing scripts in Python
- Practice in data structures & algorithms

## **EDUCATION**

**B.Sc. in Computer Science and Mathematics, Ariel University, Israel**

*Expected graduation- 2025*

- Algorithms
- Programming 1 and 2
- Data Structures
- Computer Structure

**High school diploma**

- 5 Physics units
- 5 Computer Science unit
- 5 Network Management unit

## **MILITARY SERVICE 2017-2021**

- Managed 24/7 war room operations at a high-risk base, working with Motorola, Eldor, and EL-FAR security system
- Monitored security cameras, motion detectors, and fire sensors to ensure base security and rapid response to potential threats

## **LANGUAGES**

- Hebrew – Native languages
- English - Fluent
